

Management REPORT

May 19, 1955

No. 122

J. D. ZELLERBACH, President of CZ Corporation, will be a Camas visitor this afternoon (Thursday) and tomorrow morning. Supervisors, civic leaders, and Clark county legislators will join him at dinner tonight. He will visit the plant between 9:00 A.M. and 11:00 A.M. Friday.

Mr. Zellerbach was luncheon speaker at the Chamber of Commerce Forum in Portland Monday noon. During the week he is visiting company-owned forest and mill operations at Molalla, Seaside, St. Helens, West Linn, and Portland, Oregon; and Cathlamet and Camas in Washington. W. D. Welsh and Charles Allen of Headquarters are accompanying him.

J. D. Zellerbach has been president of Crown Zellerbach since 1940. A native of San Francisco, he joined the company after graduating from the University of California in 1913. He took a two-year leave of absence from 1948 to 1950, while he served as head of the Economic Cooperation Administration's special mission to Italy. Mr. Zellerbach also served as an alternate U.S. delegate to the 8th General Assembly of the United Nations from September to November, 1953. He is a director of Rayonier, Inc., Fibreboard Products, Wells Fargo Bank, and California Packing, and is active in many civic and charitable organizations.

SCHOLARSHIPS offered by Crown Zellerbach Foundation to high school seniors have been awarded to Ardith Lein, Camas, and Maureen Kinney, Washougal. Ardith is the daughter of Sophus Lein, roll grinders. Maureen is the daughter of Mrs. Gertrude Kinney, Central Research Division. Each scholarship totals \$2000, to be awarded at \$500 per year for each winner for the four years of her college course. Choice is made by local school boards from the seniors who apply for the scholarship in the high schools of the 12 communities where CZ mills are located.

CROWN ZELLERBACH CORPORATION yesterday announced plans for the construction of a 22-floor multi-million dollar headquarters office building in downtown San Francisco at the junction of Market, Bush, and Battery streets to be completed by mid-1958.

"We have been expanding so rapidly that our headquarters staff has outgrown our present building," said President J. D. Zellerbach. "The new building is designed for 2000 people - to take care of our projected future expansion, and to provide rental space for other firms."

The new office building is expected to be one of the most attractive and functional on the Pacific coast. It will cover a rectangular area of 13,000 square feet, and will be surrounded by 20,000 square feet of landscaped gardens. An underground two-level garage will hold more than 200 cars. The building will be completely fireproofed and air-conditioned.

THERE HAVE BEEN NO ACCIDENTS thus far in May, making five lost-time and 96 slights for the year, compared to seven lost-time and 133 slights last year.

TWO RETIRED ASSOCIATES have passed away this week at Vancouver hospitals. OSCAR STUKI, 73, retired from the printing department in 1949 with 35 years of service. Burial will be in Park Hill cemetery, McLoughlin Heights, today (Thursday) at 2 P.M. OSCAR SADD, 55, retired from the yard in 1948 on permanent and total disability after 28 years of service. Funeral services will be held at Stollers at 2 P.M. on Saturday.

DO YOU KNOW WHAT INSURANCE YOU CARRY? Recently, Sam Runyan was helping the widow of one of our retired associates to get her business matters in order. She had two insurance policies upon which she and her husband had paid premiums for years, believing them to be life insurance. Unfortunately, they turned out to be health and accident policies from which they had claimed no benefits during the husband's long illness.

Nearly every insurance policy has its special clauses such as making claims within 10 days of the start of an illness, or covering some illnesses and not others. Go over your policies carefully so that you'll know these restrictions and can observe them, thereby collecting benefits without delay or inconvenience. If you don't understand them, take them to some advisor in whom you have confidence. You're paying out hard-earned money to buy protection for yourself and family. Be sure you get your money's worth.

ARE YOU LOOKING for a good way to build a savings account? Russell Hickey, secretary of the Credit Union, says that of the 1939 depositors many now have substantial savings accounts because they signed up to have \$10 or \$15 held out by monthly payroll deduction. Interest paid on deposits has varied in recent years from 4% to 4½%. Both large and small deposits are particularly welcome now because of the many loans made in recent weeks. Total amount loaned this year to May 1 is \$286,000. Total shares deposited during the first four months of this year, \$173,000. Both are an all-time high for the Credit Union for any similar period.

THIS SHOULD HELP SELL CAMAS BREAD WRAP (Quoted from Headquarters Bulletin)-Western Waxed Paper Division is co-sponsoring the Mel Venter "Tello-Test" radio quiz show over the Don Lee network on Tuesdays and Thursdays from 3:45 to 4:00 P.M. for 13 weeks starting May 3. The show is heard regularly in 400,000 homes in all parts of Washington, Oregon, California, Eastern Idaho and the Reno, Nevada area. Western Waxed's commercials are designed to benefit the bakery industry and its bread distributors by promoting bread as an important food. Bread wrap is one of Western Waxed's biggest volume products. Western Waxed is furnishing one of the consolation prizes given the housewives telephoned by Venter during the broadcast who are unable to answer his jackpot question. Western Waxed supplies a certificate entitling the housewife to 15 loaves of her favorite bread from her favorite supplier. In the case of markets and grocery stores, the supplier's name is repeated by Venter during his conversation with the housewife. Western Waxed follows up the radio publicity with personal letters, direct mail promotional material and personal contacts by WWP salesmen to bakery, management throughout the broadcast territory. (Carried locally on KPOJ, Dial 1330.)
